Diesel Doctor

Great tool for Volvo!

Reviewed in the United States on November 30, 2025

Verified Purchase

Purchased and used this cable for VIDA work on a 2018 SPA Volvo Chassis. Worked like a champ! Well built, fit and finish are as expected. One thing to note (if working with Volvo Chassis) you may need a USB to Ethernet adapter. My PC would drop Wifi as soon as this cable was inserted. with the adapter no issues whatsoever! I was able to perform diagnostics, pair a used key fob, and update the entire car's software. Great option!

Avboden

Works with SPA volvos with VIDA and Orbit

Reviewed in the United States on February 26, 2026

Verified Purchase

Worked great with VIDA and Orbit on an SPA S60. Exactly as advertised. Not much else to say, it works.

Petter

No issues, works great

Reviewed in the United States on November 21, 2025

Verified Purchase

Worked flawlessly immediately out of the box. Connected to my 2020 Volvo V60cc T5 using V DASH and successfully pulled codes and info related to a check engine light.

Build quality seems nice and sturdy as well.
